

Exercises (February 7, 2018):

1. Exercise: try typesetting this

It doe snot work with beamer

- > The first entry here
- > Then the second
- > etc

- The first entry here
- Then the second
- etc

Hint: Use `\textgreater` for “>” and `\bullet` for “•”.

2. Make a tripple nested list.

3. How do you get this default:

- > First level

 - Third level

Check that it works by typesetting the tripple ensted list of the pervious exercise.

Hint: Symbols used: `\textgreater`, `\star`, `\bullet`.

Exercises (March 7, 2018):

1. Experiments:

- (a) Paste a lot of text into your document, enough for a couple of pages of typeset material, at least 6 good paragraphs.
(*Hint*: Find one good paragraph, copy it into the buffer, and paste it many times into your document).

Then insert your *Dream Team Table* between paragraphs 2 and 3. Include a caption with a `\label{dreamteam}` (you provide the text). Insert `\ref{dreamteam}` somewhere in the text before and again after where you inserted the table.

Typeset once with each of positioning `b`, `t` and `h`.

- (b) Copy the table and caption and paste into the space between paragraphs 4 and 5. Typeset. Check console (warning on repeated labels).

Change label of second table: `\label{dreamteam2}`. Insert a few `\ref{dreamteam2}` somewhere in the text before and again after where you inserted the table.

2. Resize and crop the triton image to get this:

3. *Experiment* with images just as you did with tables above, and with both tables and figures in the same document. Download additional figures from the web.

Solutions

Exercise 1: Make sure you leave a blank line between paragraphs!

Exercise 2:

```
\begin{center}
\includegraphics[width=3cm,trim= 7cm 6cm 8cm 1cm,clip]{gl-5-triton.png}+
\end{center}
```
